

THE VOGL PROGRAM
for Autism Spectrum Disorders

Dream Coaching

- The goals and interests of the children are put as a priority over behaviors
- Goals and dreams of parents are incorporated
- Behaviors are addressed as a means for families to reach their goals
- Both social dreams and vocational dreams are addressed
- Social dreams consist of new friendships and social activities
- Vocational dreams consist of following an early career path for adolescents or developing interests in younger children
- Developing interests can begin at an early age
- For adolescents, job search and placement is incorporated
